I'm also attaching the materials and information list, sharing what is needed on day one. (circled items)

### **Brief Summary**

The classes are small groups with lots of individualized attention at the easel.

Each 4-5 week session of classes focuses on a fundamental principal or element to making art.

You will discover how to experiment, play, loosen up as artists, and learn exciting new ways to create alive paintings, with mixed media art.

Each session block builds upon the previous, but the curriculum I've developed allows for new students to begin at any time.

The small group makes it possible to accommodate all levels of experience.

Participants work from their own photo references, whether still life, landscape, objects, or intuition and imagination.

All water paint media (oil, acrylic, gouache) and dry pastel are being used by students.

I generally begin class with a brief demo and/or lesson supporting the main topic, and the remainder of each class is lesson application/experiment/paint time.

On the last class of each session, we have a group review and discussion.

**Art Elements:** Point·Line·Shape·Form·Texture·Value·Color·Space

**Principles of Art:** Scale·Contrast·Emphasis·Repetition·Balance·Pattern·Rhythm·Unity·Harmony

The elements and principles of art are the building blocks used to create a work of art.

The elements can be thought of as the things that make up a painting, drawing, or sculpture.

The principles can be thought of as what we do to the elements.

How we apply the principles determines how successful we are in creating a work of art.

How much experimentation and play at the easel is overall the most important!
